Philips DVP3260_12

Also for model 3264_12.
My mod firmware have to base second release from Philips (with USB fix), from September 2008.
V51: Fix DivX file USB playback crash issues seen during end of playback

There are two version of this player 3260 with Sony DVD and 3260I with Samsung DVD unit.
Open tray and press "55" to see what player do you have. You will see on screen DVD3260_12.bin or DVP3260I_12.bin. Choose correct version (I or not) and code page for your language.

- New skins
- New filebrowser with scrollbars, outline font (**48 char from USB**, and from CD/DVD limit to "yellow band" - intelligent file cutter, max. 64 char.)
- 8 lines in filebrowser.
- New icons for files.
- 4 fonts for subtitles. (small, standard, medium and large)
- Menu for font color.(*******)
- Menu for "Load Original Subtitles, if not find load all" with 3 option "Load Original then all", "Load All" and "Load match name". (********)
- Menu for set vertical position for subtitles.
- All menu for avi subtitles are in "General Page". You can change fonts, color and position (vertical) when movie play
- Autoload subtitles
- For avi files "GoTo: h:mm:ss". When play avi files press "Title" 2 times and enter H:MM:SS to jump to moment you want.
- WordWrap and reformat, better but not perfect...
- OSD font with outline, better contrast for all OSD message.
- Full UnicodeToCp (USB and ISO+Joliet), show all special characters in file browser.

- Partial remove UOP (User operation prohibition)
- **If you want to use "ssa", "smi" or vobsub (sub/idx) subtitle use version without patch "Load ORG Then All", version is NO_ORG.**
- **For model 3260I two version:**
  - **Without color** for subtitles (only white subtitles with black outline).
  - **With colors** for subtitle (text, outline and background), but with bug: *"When exit setup while watch a movie, color for subtitles is changed"*.

Very important! **Before upgrade SET OSD LANGUAGE TO ENGLISH.**

Instruction for upgrading HERE

Version for CP 1250, 1251, 1252, 1253 and 1254 (CP = Code Page)

Knows bugs
On some custom DVD's, from time to time subtitles are "dirty".

New design

- New skin for logo and filebrowser (smaller height for filebrowser).
- New font for OSD and filebrowser
- New icons
- Yellow bar is now grey
- 1 tag mp3
- Only version with "Load Org then all" (ORG version)
- Volume stored and restored on power off/on
- FIX Color Bug for version "I"

Another additional site is aznv.tv (you will need winmp plyaer to watch though) they have many licensed stuff.
However recently they made it invitation only site. So you will need an invitation code to get in..
Sunday, 30 June,2013 12.25

GoF9LWmz7 say:
You can try veoh.com or crnchuyroll.comFor crnchuyroll.com you have to sign up, but its free. There subtitles
are accurate and the video quality is awesome.As for princess hours, I tried a few times online on many
different websites, but they don't have it. I think its because this show was licensed. U can but it on dvd though

transparent background for subtitles?
is it possible?
Wednesday, 9 November,2011 20.44

Misxa say:
AVI files larger than 1GB are stopped before the end of the movie. It looks like this size is some kind of a limit.
Many movies available on torrents are approximatelly 1.5 GB in size.
